Subject index

Acetaldehyde,
aneuploidy, cytogenetic activity, Chinese hamster cells 207
2-acetylaminofluorene,
mutagenic activation, inter-individual variation, human liver S9 samples, animal models 323
Acrylamide,
mutagenic activity, genotoxicity tests, eukaryotic systems 263
Adaptive response,
DNA repair, MNNG pretreatment, alkylating agents, *Rhodobacter* spp. 165
Alkylating agents,
adaptive response, DNA repair, MNNG pretreatment, *Rhodobacter* spp. 165
bacterial assays, genotoxicity, quantification 317
molecular dosimetry, DNA adduct formation, genotoxicity, quantitative comparative mutagenesis, *in vivo* systems, whole animal studies 179
UV-irradiation, mutagenesis, cell killing, wild-type/deoxycytidine kinase deficient Friend murine leukaemia cells 153
UV-irradiation, mutagenesis, *Streptococcus lactis* 245
2-amino-3, 4-dimethylimidazo[4, 5-*f*]quinoline,
2-amino-3-methylimidazo[4, 5-*f*]quinoline, *N*-acetylated metabolites, genotoxicity 303
2-amino-3-methylimidazo[4, 5-*f*]quinoline,
2-amino-3, 4-dimethylimidazo[4, 5-*f*]quinoline, *N*-acetylated metabolites, genotoxicity 303
***para*-aminobenzoic acid,**
inhibitory effects of, formation and mutagenicity of *N*-nitroso compounds 329
N^4-aminocytidine,
genotoxicity, *Drosophila melanogaster* wing spot test, short-term test, somatic recombination, mutation 11
Ampicillin resistance,
bacterial genetic marker, mammalian material, letter to the Editor 285
Anaerobic conditions,
bacterial mutagenicity, fecapentaenes 169
Aneuploidy,
a possible aneuploidy assay, micronucleated chromosomes, kinetochores 415
chemically induced mutation, female germ cells, chromosome aberrations, mice 249
chromosome aberrations, benzodiazepines, genotoxicity, Chinese hamster cells 23
cytogenetic activity, acetaldehyde, Chinese hamster cells 207
Anti-mutagenicity,
catechin, catechu, betel quid, environmental mutagens 293
L-arabinose resistance test,
mutagenicity, red wine (Rioja), *Salmonella typhimurium* 497
Asbestos fibres,
12-*O*-tetradecanoylphorbol-13-acetate, synergistic effects, BALB/3T3 cell transformation system, orthogonal design method 355
Azo dyes,
structure–activity relationship studies, mutagenicity, Salmonella/microsome assay 311

Bacterial assays,
genotoxicity, quantification, alkylating agents 317
Battery selection,
mutagenicity testing, short-term genotoxicity assays, definition of a negative response, Editorial 453
short-term genotoxicity tests, mammalian cell mutation assays, discussion forum 459
Benzidine,
carcinogens, unscheduled DNA synthesis, *in vivo/in vitro* rat liver assay 69
2-naphthylamine, bone marrow micronucleus assay, male mouse 437
Benzodiazepines,
genotoxicity, aneuploidy, chromosome aberrations, Chinese hamster cells 23
Bone marrow micronucleus assay,
benzidine, 2-naphthylamine, male mouse 437
chromosome-damage, cigarette smoke condensates, sidestream/mainstream, smoking, NMRI mice 419
species specificity: mouse/rat, carcinogens, genotoxicity, GeneTox protocol revision 35

Caffeine,
chromosome aberrations, mitomycin C, DNA repair 39
inhibited mutagenicity, microsomes, genotoxins, BALB/c mice 423
Carcinogenicity,
genotoxicity, bone marrow micronucleus assay, GeneTox protocol revision, species specificity: mouse/rat 35
prediction of, *in vitro*, short-term genotoxicity tests, rodent, discussion forum 287
Catechin,
catechu, betel quid, anti-mutagenicity, environmental mutagens 293
Cathinone,
khat leaves, mutagenicity, dominant lethal test, male mouse 481
Chemically induced mutation,
chromosome aberrations, female germ cells, aneuploidy, mice 249
Chloroprene,
isoprene, cytogenetic studies, mice 141
Chromosomes,
chromosome aberrations, aneuploidy, benzodiazepines, genotoxicity, Chinese hamster cells 23
chromosome aberrations, caffeine, mitomycin C, DNA repair 39
chromosome aberrations, chemically induced mutation, female germ cells, aneuploidy, mice 249
chromosome aberrations, genotoxicity tests, cellular DNA, protein content, flow cytometry 219
chromosome-damage, bone marrow clastogenicity, cigarette smoke condensates, sidestream/mainstream, smoking, NMRI mice 419
Cigarette smoke condensates,
sidestream/mainstream, chromosome-damage, bone marrow clastogenicity, smoking, NMRI mice 419
Clastogenicity,
cytotoxicity, mutagenicity, DNA damage, procarcinogens, hepatotrophic chemicals, rat hepatoma cell line 269
Creatine,
mutagenicity, fried meat: beef/chicken 503
Cytochrome P-450,
S9 fractions, short-term genotoxicity testing, monooxygenase activity, sex-dependence, pre-induction 239
Cytogenetics,
aneuploidy, acetaldehyde, Chinese hamster cells 207
chloroprene, isoprene, mice 141
Cytotoxicity,
DNA synthesis, sister-chromatid exchange, paracetamol/paracetamol analogues, V79 Chinese hamster cells 51
mutagenicity, clastogenicity, DNA damage, procarcinogens, hepatotrophic chemicals, rat hepatoma cell line 269

3-diazo-*N*-nitrosobamethan,
tumour-initiating/tumour-promoting activities, rat stomach mucosa 299
DNA,
cellular DNA, chromosome aberrations, protein content, flow cytometry, genotoxicity tests 219
DNA adduct formation, molecular dosimetry, alkylating agents, genotoxicity, quantitative comparative mutagenesis, *in vivo* systems, whole animal studies 179
DNA adducts, metabolic pathways, hydroxyamino derivatives/heterocyclic amines, cooked foods, amino acid pyrolysates, *in vivo/in vitro* reactions, ^{32}P-postlabelling analysis 515
DNA damage, mutagenesis, gamma-rays, lamda phage 29
DNA damage, mutagenesis, UV-irradiation, UV-enhanced reactivation, adenovirus, human fibroblasts, *Escherichia coli* 157
DNA damage, mutagenicity, clastogenicity, cytotoxicity, procarcinogens, hepatotrophic chemicals, rat hepatoma cell line 269
DNA damage, mutagenicity, oxolinic acid, pipemidic acid, granuloma pouch assay, rat 397
DNA metabolism, genetics, mutation, alkylating agents, recombinant shuttle vectors, *lacI* gene, *E.coli* 1
DNA repair, adaptive response, MNNG pretreatment, alkylating agents, *Rhodobacter* spp. 165

DNA repair, chromosome aberrations, caffeine, mitomycin C 39
DNA repair, ozone, X-radiation, UV-irradiation, *polA* mutants of *Escherichia coli* K-12 257
DNA replication/repair, *in vitro* complementation, xeroderma pigmentosum, *Escherichia coli* 373
DNA synthesis, sister-chromatid exchange, cytotoxicity, paracetamol/paracetamol analogues, V79 Chinese hamster cells 51
Dose-level effects,
high dose levels, mutagenicity assays, cultured mammalian cells, S9 activation 213
Drinking water,
mutagenicity, chromosome damage, bacterial mutation, sex-linked recessive lethal mutations, *Drosophila melanogaster* 381

EEMS,
Annual Meeting Report 175
Embryotoxicity,
maternal-serum factors, reproductive failure, preimplantation mouse embryo 403
Environmental mutagens,
anti-mutagenicity, catechin, catechu, betel quid 293
genetic effects, research programme of the EEC 105

Fecapentaenes,
bacterial mutagenicity, anaerobic conditions 169
Female germ cells,
chromosome aberrations, chemically induced mutation, aneuploidy, mice 249
Fried meat,
beef/chicken, mutagenicity, creatine 503
Friend murine leukaemia cells,
wild-type/deoxycytidine kinase deficient, alkylating agents, UV-irradiation, mutagenesis, cell killing 153
Furoquinoline alkaloids,
dictamnine, mutagenicity, Salmonella/microsome assay, rat liver S9, enzyme inducers/inhibitors 349

Gamma-rays,
DNA damage, mutagenesis, lamda phage 29
Genetics,
environmental chemicals, research programme of the EEC 105
hydrocarbon solvents, oxygenated solvents 227
hypoxanthine phosphoribosyl transferase locus, O^6-alkylguanine DNA alkyltransferase gene, induced reversion frequencies 409
mutation, alkylating agents, DNA metabolism, recombinant shuttle vectors, *lacI* gene, *E.coli* 1
mutations, human c-Ha-*ras*-1 gene, safrole, Glu-P-3, NIH3T3 mouse fibroblasts 429
Genotoxicity,
2-amino-3-methylimidazo[4, 5-*f*]quinoline, 2-amino-3, 4-dimethylimidazo[4, 5-*f*]quinoline, *N*-acetylated metabolites 303
N^4-aminocytidine, *Drosophila melanogaster* wing spot test, short-term test, somatic recombination, mutation 11
benzodiazepines, aneuploidy, chromosome aberrations, Chinese hamster cells 23
bioaccumulation, mercury compounds, methyl mercuric chloride/mercuric chloride, *Pleurodeles waltl* 337
carcinogens, bone marrow micronucleus assay, GeneTox protocol revision, species specificity: mouse/rat 35
embryo genotoxicity, human blood serum, sister-chromatid exchange, cyclophosphamide, 'early warning' system for *in vitro* fertilization, rodents 45
genotoxicity assays, *in vivo* equivalent dose concept, letter to the Editor 528
genotoxicity assays, *in vivo/in vitro* testing, *in vivo* equivalent dose concept, letter to the Editor 527
genotoxicity mechanisms, mutagenicity, nitro-imidazoarenes, *Salmonella typhimurium* 147
genotoxicity studies, *in vivo/in vitro*, short-term mutagenicity assays, loxtidine, rodents 57
genotoxicity tests, chromosome aberrations, cellular DNA, protein content, flow cytometry 219
genotoxicity tests, mutagenic activity, acrylamide, eukaryotic systems 263
harmine, UV-mediated bioactivity, meristematic cells, *Allium cepa* 333
1 and 2-nitropropane, reversion, *Salmonella typhimurium*, human lymphocytes 137
quantification, alkylating agents, bacterial assays 317
quantitative comparative mutagenesis, molecular dosimetry, DNA adduct formation, alkylating agents, *in vivo* systems, whole animal studies 179
Genotoxins,
microsomes, caffeine inhibited mutagenicity, BALB/c mice 423

Harmine,
genotoxicity, UV-mediated bioactivity, meristematic cells, *Allium cepa* 333
Hepatoma cell line H4IIEC3/G$^-$,
hepatocyte primary cultures, V79 Chinese hamster cells, sister-chromatid exchange, indirect mutagens, promutagens, metabolic activation, rat 521
Hepatotrophic chemicals,
procarcinogens, DNA damage, mutagenicity, clastogenicity, cytotoxicity, rat hepatoma cell line 269
Heterocyclic amines,
hydroxyamino derivatives, DNA adducts, metabolic pathways, *in vivo/in vitro* reactions, ^{32}P-postlabelling analysis, cooked foods, amino acid pyrolysates 515
Hydrocarbon solvents,
oxygenated solvents, genetic toxicology 227
Hypoxanthine phosphoribosyl transferase locus,
O^6-alkylguanine DNA alkyltransferase gene, induced reversion frequencies, genetics 409

***In vitro* complementation,**
xeroderma pigmentosum, DNA, replication/repair, *Escherichia coli* 373
***In vivo* equivalent dose concept,**
genotoxicity assays, letter to the Editor 528
in vivo/in vitro testing, genotoxicity assays, letter to the Editor 527
***In vivo/in vitro* testing,**
in vivo equivalent dose concept, genotoxicity assays, letter to the Editor 527
in vivo mutagenicity/non-genotoxicity *in vitro*, test strategy, mutagenicity, short-term tests 103
Isoprene,
chloroprene, cytogenetic studies, mice 141

Loxtidine,
genotoxicity studies, *in vivo/in vitro*, short-term mutagenicity assays, rodents 57
Lymphoma L5178Y mutation assay,
clastogenicity *in vivo*, *in vitro* short-term tests, S9 activation, procarbazine, mutagenicity, test strategy 83
non-clastogenic gene-mutagens, short-term genotoxicity tests, mutagenicity testing, discussion forum 463
S9 metabolic activation, mutagenicity 485
thymidine kinase locus, mutagenicity, 50 compound-test 193

Mammalian cell mutation assays,
short-term genotoxicity tests, mutagenicity testing, carcinogenicity testing, discussion forum 455
short-term genotoxicity tests, battery selection, discussion forum 459
Maternal-serum factors,
embryotoxicity, reproductive failure, preimplantation mouse embryo 403
Mercury compounds,
methyl mercuric chloride/mercuric chloride, bioaccumulation, genotoxicity, *Pleurodeles waltl* 337
Metabolic pathways,
DNA adducts, hydroxyamino derivatives/heterocyclic amines, cooked foods, amino acid pyrolysates, *in vivo/in vitro* reactions, ^{32}P-postlabelling analysis 515
Micronucleus test,
micronucleated chromosomes, aneuploidy, a possible aneuploidy assay, kinetochores 415
outliers, statistical analysis 491
sex differences, mouse 177
Microsomes,
genotoxins, caffeine inhibited mutagenicity, BALB/c mice 423
microsomal activation, 1- and 3-nitrobenzo[*a*]pyrenes, environmental pollutants, mutagenic pathways, S9 activation, Chinese hamster ovary cells 233

Mitomycin C,
caffeine, chromosome aberrations, DNA repair 39
MNNG pretreatment,
adaptive response, DNA repair, alkylating agents, *Rhodobacter* spp. 165
Molecular dosimetry,
alkylating agents, DNA adduct formation, genotoxicity, quantitative comparative mutagenesis, *in vivo* systems, whole animal studies 179
Mutagenesis,
alkylating agents, UV-irradiation, cell killing, wild-type/deoxycytidine kinase deficient Friend murine leukaemia cells 153
DNA damage, gamma-rays, lamda phage 29
untargeted viral mutagenesis, X-irradiation, UV-irradiation, monkey cells 297
UV-irradiation, alkylating agents, *Streptococcus lactis* 245
UV-irradiation, delayed expression of UV-enhanced reactivation, adenovirus, ataxia telangiectasia fibroblasts 389
UV-irradiation, UV-enhanced reactivation, DNA damage, adenovirus, human fibroblasts, *Escherichia coli* 157
Mutagenicity,
azo dyes, structure–activity relationship studies, Salmonella/microsome assay 311
bacterial mutagenicity, fecapentaenes, anaerobic conditions 169
cathinone, khat leaves, dominant lethal test, male mouse 481
clastogenicity, cytotoxicity, DNA damage, procarcinogens, hepatotrophic chemicals, rat hepatoma cell line 269
DNA damage, oxolinic acid, pipemidic acid, granuloma pouch assay, rat 397
drinking water, chromosome damage, bacterial mutation, sex-linked recessive lethal mutations, *Drosophila melanogaster* 381
fried meat: beef/chicken, creatine 503
furoquinoline alkaloids, dictamnine, Salmonella/microsome assay, rat liver S9, enzyme inducers/inhibitors 349
genotoxicity mechanisms, nitro-imidazoarenes, *Salmonella typhimurium* 147
genotoxicity tests, acrylamide, eukaryotic systems, mutagenic activity 263
lymphoma L5178Y cell mutation assay, S-9 metabolic activation 485
microsomal activation, S9 activation, 1- and 3-nitrobenzo[*a*]pyrenes, environmental pollutants, Chinese hamster ovary cells, mutagenic pathways 233
mouse lymphoma forward mutation assay, thymidine kinase locus, 50 compound-test 193
mutagenic activation, inter-individual variation, 2-acetylaminofluorene, human liver S9 samples, animal models 323
procarbazine, mouse lymphoma assay, clastogenicity *in vivo*, *in vitro* short-term tests, S9 activation, test strategy 83
pyrethroids, insecticides, bacterial reversion assay, *Salmonella typhimurium* 509
red wine (Rioja), L-arabinose resistance test, *Salmonella typhimurium* 497
short-term genotoxicity tests, equimolar mixture of 52 chemicals, *Salmonella typhimurium* 345
short-term tests, *in vivo/in vitro* testing, *in vivo* mutagenicity/non-genotoxicity *in vitro*, test strategy 103
SOS Chromotest, urine, smoking 277
Mutagenicity testing,
high dose levels, dose-level effects, cultured mammalian cells, S9 activation 213
mammalian cell mutation assays, short-term genotoxicity tests, carcinogenicity testing, discussion forum 455
pesticides, Salmonella/mammalian microsome test, *Salmonella typhimurium* 467
short-term genotoxicity assays, battery selection, definition of a negative response, Editorial 453
short-term genotoxicity tests, non-clastogenic gene-mutagens, lymphoma L5178Y gene mutation assay, discussion forum 463
Mutations,
alkylating agents, genetics, DNA metabolism, recombinant shuttle vectors, *lacI* gene, *E.coli* 1
genetics, human c-Ha-*ras*-1 gene, safrole, Glu-P-3, NIH3T3 mouse fibroblasts 429
mechanisms of reversion, alkylating agents, HPRT-deficient V79 cells, Chinese hamster 15

***N*-nitroso compounds,**
formation and mutagenicity of, inhibitory effects of *para*-aminobenzoic acid 329
2-naphthylamine,
benzidine, bone marrow micronucleus assay, male mouse 437
Nitro-imidazoarenes,
genotoxicity mechanisms, mutagenicity, *Salmonella typhimurium* 147
1- and 3-nitrobenzo[*a*]pyrenes,
environmental pollutants, microsomal activation, mutagenic pathways, S9 activation, Chinese hamster ovary cells 233
1 and 2-nitropropane,
genotoxicity, reversion, *Salmonella typhimurium*, human lymphocytes 137
Non-clastogenic gene-mutagens,
short-term genotoxicity tests, mutagenicity testing, lymphoma L5178Y gene mutation assay, discussion forum 463

Outliers,
statistical analysis, micronucleus assay 491
Oxolinic acid,
pipemidic acid, DNA damage, mutagenicity, granuloma pouch assay, rat 397
Oxygenated solvents,
hydrocarbon solvents, genetic toxicology 227
Ozone,
X-radiation, UV-irradiation, DNA repair, *polA* mutants of *Escherichia coli* K-12 257

Paracetamol,
paracetamol analogues, cytotoxicity, DNA synthesis, sister-chromatid exchange, V79 Chinese hamster cells 51
Pesticides,
mutagenicity testing, Salmonella/mammalian microsome test, *Salmonella typhimurium* 467
Pipemidic acid,
oxolinic acid, DNA damage, mutagenicity, granuloma pouch assay, rat 397
Pre-induction,
short-term genotoxicity testing, S9 fractions, cytochrome P-450, monooxygenase activity, sex-dependence 239
Procarbazine,
mutagenicity, mouse lymphoma assay, clastogenicity *in vivo*, *in vitro* short-term tests, S9 activation, test strategy 83
short-term tests activity profile, letter to the Editor 89
Pyrethroids,
insecticides, mutagenicity, bacterial reversion assay, *Salmonella typhimurium* 509

Rat liver assay,
in vivo/in vitro, unscheduled DNA synthesis, benzidine, carcinogens 69
Recombinant shuttle vectors,
DNA metabolism, genetics, mutation, *lacI* gene, *E.coli* 1
Red wine,
Rioja, mutagenicity, L-arabinose resistance test, *Salmonella typhimurium* 497
Reproductive failure,
embryotoxicity, maternal-serum factors, preimplantation mouse embryo 403
Reversion,
genotoxicity, 1 and 2-nitropropane, *Salmonella typhimurium*, human lymphocytes 137
mechanisms of, mutation, alkylating agents, HPRT-deficient V79 cells, Chinese hamster 15
***Rhodobacter* spp.,**
DNA repair, adaptive response, alkylating agents, MNNG pretreatment 165

S9 metabolic activation,
cytochrome P-450, short-term genotoxicity testing, monooxygenase activity, sex-dependence, pre-induction 239
lymphoma L5178Y cell mutation assay, mutagenicity 485
Sex differences,
micronucleus test, mouse 177
Short-term genotoxicity tests,
activity profile, procarbazine, letter to the Editor 89

in vivo/in vitro, genotoxicity studies, loxtidine, rodents 57
mammalian cell mutation assays, mutagenicity testing, carcinogenicity testing, discussion forum 455
mammalian cell mutation assays, battery selection, discussion forum 459
monooxygenase activity, S9 fractions, cytochrome P-450, sex-dependence, pre-induction 239
mutagenicity testing, non-clastogenic gene-mutagens, lymphoma L5178Y gene mutation assay, discussion forum 463
mutagenicity testing, definition of a negative response, battery selection, Editorial 453
mutagenicity, equimolar mixture of 52 chemicals, *Salmonella typhimurium* 345
non-clastogenic mutagens, mammalian cell gene mutation assays 369
prediction of carcinogenicity *in vitro*, rodent, discussion forum 287
test strategy, mutagenicity, *in vivo/in vitro* testing, *in vivo* mutagenicity/non-genotoxicity *in vitro* 103

Sister-chromatid exchange,
cyclophosphamide, toxicity, embryo genotoxicity, human blood serum, 'early warning' system for *in vitro* fertilization, rodents 45
DNA synthesis, cytotoxicity, paracetamol/paracetamol analogues, V79 Chinese hamster cells 51
hepatoma cell line H4IIEC3/G$^-$, hepatocyte primary cultures, V79 Chinese hamster cells, indirect mutagens, promutagens, metabolic activation, rat 521

Smoking,
SOS Chromotest, mutagenicity, urine 277

SOS Chromotest,
mutagenicity, urine, smoking 277

Species specificity,
bone marrow micronucleus assay, GeneTox protocol revision, carcinogens, genotoxicity, mouse/rat 35

Statistical analysis,
outliers, micronucleus assay 491

***Streptococcus lactis*,**
mutagenesis, UV-irradiation, alkylating agents 245

Test strategy,
clastogenicity *in vivo*, *in vitro* short-term tests, S9 activation, procarbazine, mutagenicity, mouse lymphoma assay 83
Discussion forum 95
letter to the Editor 363,365
short-term tests, *in vivo/in vitro* testing, mutagenicity, *in vivo* mutagenicity/non-genotoxicity *in vitro* 103

12-*O*-tetradecanoylphorbol-13-acetate,
asbestos fibres, synergistic effects, BALB/3T3 cell transformation system, orthogonal design method 355

UKEMS,
abstracts of papers presented at the 12th Annual Meeting 441

Unscheduled DNA synthesis,
benzidine, carcinogens, *in vivo/in vitro* rat liver assay 69

Urine,
mutagenicity, SOS Chromotest, smoking 277

UV-irradiation,
alkylating agents, mutagenesis, cell killing, wild-type/deoxycytidine kinase deficient Friend murine leukaemia cells 153
alkylating agents, mutagenesis, *Streptococcus lactis* 245
delayed expression of UV-enhanced reactivation, mutagenesis, adenovirus, ataxia telangiectasia fibroblasts 389
ozone, X-radiation, DNA repair, *polA* mutants of *Escherichia coli* K-12 257
UV-enhanced reactivation, mutagenesis, DNA damage, adenovirus, human fibroblasts, *Escherichia coli* 157
UV-mediated bioactivity, harmine, genotoxicity, meristematic cells, *Allium cepa* 333

Wing spot test,
genotoxicity, N^4-aminocytidine, short-term test, somatic recombination, mutation, *Drosophila melanogaster* 11

X-rays,
UV-irradiation, ozone, DNA repair, *polA* mutants of *Escherichia coli* K-12 257
